Precision matters. It matters in every pound-foot of torque, every millimeter of fit and finish and every decibel of quiet. It drives us to reimagine solutions and create rewarding driving experiences. That’s why the new 2016 Terrain is a testament to continuous evolution. We’ve enhanced its styling, signaling its position as a leader in design and engineering. More innovations per square inch means you get full-size capability in a smart, connected crossover.
SIGNATURE DENALI GRILLE
NEW EXTERIOR DESIGN
PROJECTOR-BEAM HEADLAMPS
PROGRAMMABLE POWER LIFTGATE

TERRAIN DENALI IN EBONY TWILIGHT METALLIC shown with available equipment.
Looking at the new 2016 Terrain Denali, it’s easy to see why it’s the ultimate Terrain. With its signature Denali grille and new styling, satin-chrome door handles, mirror caps, bodyside moldings and new Denali-exclusive wheels, it takes the crossover to a new level of premium. After all, at GMC, precision means more than premium refinement—it means precision design, engineering and craftsmanship.
TERRAIN SLT: LOOKING GOOD WAS ONLY A START.

The GMC design philosophy is to create styling that doesn’t simply look good, it must also be purposeful. From the angle of the windshield to every line and curve, the whole idea is to disturb less air. That’s why Terrain is designed to slice the wind to help create a quiet driving environment. SLT offers additional features that will catch your attention.
The proportions of Terrain were crafted with a clear understanding of what you look for in a crossover. This is a design that turns an abundance of bold details into a whole new take on the crossover.

**Denali Grille**  Terrain Denali features a satin-chrome grille with a bright surround, giving it a distinctive appearance.

**Aluminum Wheels**  Terrain Denali models offer two aluminum wheel choices: 18" chrome-clad wheels with the I-4 and 19" ultra-bright machined aluminum wheels with the V-6 engine.

**Projector-Beam Headlamps**  Terrain provides bright, focused illumination for confident visibility with integral projector-beam headlamps.

**Programmable Power Liftgate**  Terrain offers a programmable power liftgate. It opens and closes with the touch of a button to the programmed height.
INTEGRATED LED DAYTIME RUNNING LAMPS For daytime illumination, Terrain offers LED daytime running lamps for excellent visibility and durability.

ACOUSTIC LAMINATED GLASS The windshield is engineered with acoustic laminated glass to help keep road noise from entering the cabin.

TRIPLE DOOR SEALS Airtight door seals on all four doors not only baffle unwanted road noise, but also minimize air leaks for a quieter interior.

CHROME BODYSIDE MOLDING Satin-chrome accents, including rocker moldings, accentuate the chiseled, muscular shapes of Terrain Denali.

STYLIZED CHROME EXHAUST TIPS Unique chrome exhaust tips add to Terrain Denali’s bold rear profile.
PREMIUM MEASURED IN STITCHES-PER-INCH AND COMFORT-PER-MILE.

Open the door to Terrain Denali and discover the result of a lot of thinking—about you. To enhance your comfort, convenience and driving experience, GMC designers ensured that style and practicality are equally represented. A generous stitches-per-inch ratio results in a detailed, premium appearance that maintains its shape over time. Denali also means all of your tactile, visual and auditory senses have been elevated. Professional Grade engineering and exacting execution are what we demand of ourselves, because it’s what precision demands. Here’s proof.
TUNED TO HEAR WHAT YOU’VE BEEN MISSING.

It’s one thing to possess technology that keeps you connected, informed and entertained; it’s quite another to be surrounded by an acoustically premium environment, thanks to features such as triple door seals. Options including OnStar 4G LTE Wi-Fi® turn Terrain into a mobile hotspot, while the IntelliLink audio system enables personalized entertainment and an available Navigation System provides reliable turn-by-turn guidance. When it comes to solitude, we don’t miss a beat, so you never have to. The list of SLT appointments continues at left.

1 Devices must be WPA2-compliant with active OnStar service and data plan. Wi-Fi devices manufactured prior to 2008 may not be compatible. Please consult your device manufacturer for information regarding the WPA2 security protocol and Wi-Fi device compatibility. Vehicle must be started or in accessory mode to access Wi-Fi. Visit onstar.com for details and system limitations. 2 Full functionality requires compatible Bluetooth® and smartphones. Some devices require USB connectivity. 3 Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada.
DRIVING DRIVES EVERYTHING.

From behind the wheel of Terrain you have a direct line of sight to gauges, easy fingertip access to controls and voice command of available entertainment and navigation functions. This allows you to focus on the driving experience.
VOICE-ACTIVATED INTELLIlink® AND NAVIGATION® SYSTEM (AVAILABLE)

COLOR TOUCH AUDIO SYSTEM

THE CONVENIENCE OF REMOTE START (AVAILABLE)

BLUETOOTH® SMARTPHONE INTEGRATION

“Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity. *Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. Go to my.gmc.com/learn to find out which phones are compatible with this vehicle.”
TAKES THE INTERNET ALONG FOR THE RIDE.

Terrain offers all the technology you need to stay connected, informed and entertained. Terrain offers OnStar 4G LTE capability with an available Wi-Fi hotspot. You can easily connect up to seven devices to the Internet along your travels.

COLOR TOUCH AUDIO SYSTEM A 7” diagonal high-resolution touch-screen makes it easy to find important information quickly. Not only does it include AM/FM/SiriusXM® (with 3-month trial on all models except SL), it also gives you a customizable home page and both USB® and auxiliary inputs for your MP3 player.

INTELLILINK® Standard on SLE-2, SLT and Denali, IntelliLink provides smartphone integration and voice-activated control of your communication and entertainment selections. This includes making a call, changing the station, streaming Internet radio stations Pandora® and Stitcher™ SmartRadio through your smartphone or accessing your music library.

NAVIGATION SYSTEM® The available NAV system, which includes IntelliLink®, adds multiple map views. It also features 3 months of NavTraffic®, so you’ll get continuously updated traffic information incorporated into the Navigation System.

4G LTE HOTSPOT® This available 4G LTE Wi-Fi hotspot means a fast Internet connection for up to seven Web-enabled devices. It’s reliably fast and easy to use.
**REAR VISION CAMERA SYSTEM** It displays a real-time image with grid lines in the color touch-screen while in reverse, making it easier and safer when backing up. Shown with available Rear Cross Traffic Alert.

**REMOTE VEHICLE START** This available feature can start Terrain from up to 200 feet away, so the cabin will begin warming to your preset temperature. SLE-2, SLT and Denali models can begin heating or cooling the interior based on exterior temperature and also turn on heated seats, the rear defroster and outside heated side-view mirrors.

**USB CONNECTIVITY** Plug into the USB port and control most of your MP3 music player’s functions with available steering-wheel-mounted radio controls.

**PIONEER® PREMIUM SOUND** The available Pioneer system allows you to hear your favorite music as the artist intended. With the help of eight strategically placed speakers, this available sound system fills the interior with 250 watts of premium sound.

**STEERING-WHEEL-MOUNTED RADIO CONTROLS** Change stations, adjust volume or search the audio system with your fingertips.

**SIRIUSXM SATELLITE RADIO** Get a 3-month trial subscription to the XM Premier Package on all Terrain models except SL, with 130 channels including commercial-free music, sports, news, talk, comedy and entertainment. With NavTraffic, Travel Link and the Local Forecast feature, you’ll get continuously updated traffic, weather and fuel prices right on your vehicle’s available NAV system.

**BLUETOOTH FOR PHONE** Keep your eyes on the road by controlling your phone or portable device with your voice. It works through the steering-wheel-mounted controls.

---

1. Devices must be WPA2-compliant with active OnStar service and data plan. Wi-Fi devices manufactured prior to 2006 may not be compatible. Please consult your device manufacturer for information regarding the WPA2 security protocol and Wi-Fi device compatibility. Vehicle must be started or in accessory mode to access Wi-Fi. Visit onstar.com for details and system limitations. 
2. If you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel! See SiriusXM Customer Agreement for complete terms at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change. For more information about NavTraffic, visit siriusxm.com/navtraffic. For more information about Travel Link, visit siriusxm.com/travelink. 
3. Not compatible with all devices. 
6. Go to my.gmc.com/learn to find out which phones are compatible with the vehicle.
BECAUSE ONE SIZE DOESN’T FIT.

Terrain offers the easy-to-use Multi-Flex sliding rear seat and 60/40 split rear seatback that make going from carrying people to carrying cargo easy. The seating design allows you to slide the second row back nearly 8’. The result is 39.9” of rear leg room. The second-row seats fold down on either side [or both] for large loads—with up to 63.3 cubic feet of available cargo space. Terrain also offers additional conveniences.

Cargo and load capacity limited by weight and distribution.
TERRAIN DENALI INTERIOR IN JET BLACK
shown with available equipment.
PUTS YOU FIRMLY IN CONTROL.

Terrain provides generous space and many ways for you to tailor its comfort and storage to fit your needs and lifestyle.
ILLUMINATED SILL PLATES The two front sill plates are polished aluminum and are another example of Denali’s premium materials and finish.

DISTINCTIVE DENALI SEATING Contrast stitching outlines perforated leather-appointed seating, with an embossed Denali logo on the front seats.

HEATED FRONT SEATS To help warm you up quickly, available front heated seats can be activated when you use the available remote start. Both cushions and seatbacks have heating elements to spread the warmth evenly for added comfort.

AMBIENT LIGHTING The center stack is illuminated with warm, red ambient lighting.

EIGHT-WAY POWER SEAT Standard on Denali and available on SLT, both the driver and front passenger enjoy the comfort of an eight-way power seat with power lumbar.

CONNECTIONS Four 12-volt power ports and a USB port1 let you charge portable electronics and connect your MP3 player to the audio system.

STORAGE SPACES The interior features an oversized glove box in addition to the center console that’s deep enough for a laptop or tablet. There’s a new storage shelf under the radio, a smaller compartment under the center armrest and two-tier storage in the door panels.

ACOUSTICS AND NOISE SUPPRESSION The windshield angle, body shape and mirrors are designed to help manage airflow to reduce wind noise. For additional quiet, Terrain is engineered with triple door seals and an acoustic laminated windshield.

LOW LIFT-OVER HEIGHT The load floor is set at a height to make it easy to move large or heavy items in and out, and with the second-row seats folded down, Terrain opens up 63.9 cubic feet of available cargo space.2

LOW STEP-IN HEIGHT While the upper door opening is set high for clearance, the floor is at a lower, car-like height, making it easy for people of all sizes to enter and exit.

1Not compatible with all devices. 2Cargo and load capacity limited by weight and distribution.
HANDLES CURVES, STRAIGHTAWAYS AND YOUR EXPECTATIONS.

Terrain’s chassis and suspension tuning provide nimble maneuvering in and around town. It’s the kind of precision you’ve come to expect. With traction control and available all-wheel drive, even when road and weather conditions turn challenging, you’re still comfortably in command. Terrain offers two sources of power. Standard is the 2.4L I-4, and with front-wheel-drive models, it offers 32 hwy mpg, or there’s the available 3.6L V-6 that produces the most horsepower in its class, 301 hp with 24 mpg hwy.
ENGINE

DIRECT INJECTION (DI) For precise fuel distribution and fast, efficient combustion, both engines feature DI technology. By injecting fuel at more than 2000 psi, the air and fuel mix more completely for crisp throttle response and a lean blend for efficiency at cruise speeds.

VARIABLE VALVE TIMING (VVT) Both engines feature VVT to deliver the power of a high-performance engine with the low-speed response you need for trailering or climbing steep inclines.

ECO-MODE To help optimize efficiency, the 2.4L I-4 engine has an Eco-Mode button that allows the engine to hold gears longer, with only a slight decrease in acceleration.

OIL LIFE MONITOR For long life and durability, the monitor located in the Driver Information Center calculates how much oil life is left, based on when and how you drive.

TRANSMISSION

6-SPEED AUTOMATIC WITH OVERDRIVE For brisk acceleration and reduced highway rpm, this advanced transmission has a wide ratio spread. The gear ratios between first and sixth are appropriately spaced for strong, consistent acceleration at almost any speed.

SUSPENSION

AUTOMATIC GRADE BRAKING To prevent unwanted acceleration and reduce the need for braking during a hill descent, the 6-speed automatic includes this “smart” feature that monitors braking, acceleration, throttle position and even whether a trailer is connected.

RACK-MOUNTED POWER STEERING On 2.4L models, the system delivers assist electronically, eliminating the need for a power-steering pump. It automatically gives you extra steering boost when you need it for parking and tight maneuvers, and less assistance for highway driving.

TRAILER SWAY CONTROL Keep both you and your trailer heading in the proper direction, automatically. The system uses StabiliTrak sensors to detect the rocking of a swaying trailer, then applies the vehicle’s brakes to help bring it back in line.

HILL START BRAKE ASSIST To help prevent your Terrain from rolling back while on a hill or steep incline, it takes over when you lift your foot off the brake. It holds full brake pressure momentarily, giving you time to move your foot to the accelerator.

TRACTION CONTROL To make the most of available traction, the system senses when one or more wheels is starting to spin, such as on a slippery surface, and applies individual brakes and manages engine power to slow the wheel down and maintain traction.

ALL-WHEEL DRIVE (AWD) An intelligent AWD system is available for extra traction and the ability to adapt to changing road conditions.

ADVANCED DUAL-FLOW VALVING This feature in Terrain Denali’s front suspension provides a smoother ride and improved handling across a broad range of driving conditions.
INSTEAD OF WHAT IF, WHAT IF IT DIDN’T HAPPEN?

To help increase your awareness of surrounding traffic, Terrain offers intuitive driver-assist technologies. These include available Forward Collision Alert, Lane Departure Warning and Side Blind Zone and Rear Cross Traffic alerts to help you avoid mishaps. They’re constantly on guard, ready to help you through adverse driving conditions.

**DRIVER AWARENESS** Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner’s Manual for more important safety information.

**DUAL-STAGE FRONTAL AIR BAGS** To help reduce the risk of injury to the driver and front-seat passenger, Terrain is equipped with two front dual-stage air bags.

**HEAD CURTAIN SIDE-IMPACT AIR BAGS** These deploy from the roof rail like a protective curtain for outboard passengers and can be activated by either rollover sensors or side-impact sensors.

**SIDE-IMPACT AIR BAGS** To help protect the thorax and pelvis of the driver and front passenger in a side-impact collision, side-impact air bags are mounted on the driver and front-passenger seats.

**REINFORCED STEEL SAFETY CAGE DESIGN** A robust body-frame-integral structure is engineered to help maintain the integrity of the passenger compartment in the event of a collision.
**STABILITRAK STABILITY CONTROL SYSTEM** To help you stay in control when road surfaces are loose, snowy, icy, wet or uneven, StabiliTrak monitors how Terrain is responding to your steering and braking commands.

**LATCH CHILD SEAT ANCHORING SYSTEM** Lower Anchors and Top tethers for CHildren (or LATCH) enables a child seat top tether strap to be attached to limit movement in a forward crash, helping reduce the chance of injury.

**FORWARD COLLISION ALERT AND LANE DEPARTURE WARNING** Available Forward Collision Alert provides an audible and visual signal if you are rapidly approaching another vehicle and it appears a collision may be imminent. Available Lane Departure Warning alerts you if you wander from your lane without using your turn signal.

**SIDE BLIND ZONE AND REAR CROSS TRAFFIC ALERTS** Available radar-equipped sensors monitor side blind spots (shown above), alerting you to help reduce the risk of collisions. While in reverse, the available Rear Cross Traffic Alert monitors your surroundings to provide visual and audible alerts to traffic approaching from outside your field of vision.

**TIRE PRESSURE MONITORING SYSTEM** It alerts you to your tires' status and inflation level. If you subscribe to OnStar Vehicle Diagnostics, this information is part of the monthly e-mail. With the available OnStar RemoteLink® app for your smartphone, you can check this status instantly.

---

1Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained. See Owner's Manual for more information. Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your Owner's Manual and child safety seat instructions for more safety information. 1Does not monitor spare tire. 2Visit onstar.com for coverage map, details and system limitations. Services vary by model and conditions. 3Requires an active OnStar subscription. OnStar Hands-Free Calling requires an existing OnStar service contract and available minutes. Not available in certain markets. Visit onstar.com for coverage map, details and system limitations. Available 4G LTE Wi-Fi requires compatible mobile device, active OnStar subscription and data plan. Plus tax. Credit card payment required for monthly subscriptions.
PROFESSIONAL GRADE PROTECTION.

Pro Grade Protection is standard on every 2016 Terrain. From maintenance to protecting your entire vehicle, you can drive with confidence.

Includes 2 maintenance visits during the first 2 years/24,000 miles
3-year/36,000-mile bumper-to-bumper limited warranty
5-year/60,000-mile powertrain limited warranty
Standard for 6 months, the OnStar Guidance Plan² (trial excludes Hands-Free Calling minutes) lets you connect to a specially trained OnStar Advisor just by pressing the blue OnStar button in your Terrain.

ONSTAR WITH 4G LTE AND BUILT-IN WI-FI® HOTSPOT® Now your Terrain has an available built-in Wi-Fi hotspot for connecting up to seven tablets, laptops or mobile devices at 4G LTE speed, so the content you crave is always headed where you are. Requires a data plan after the 3-month trial period (3 months of data or 3GB, whichever comes first).

ONSTAR BASIC PLAN¹ With the Basic Plan, you’ve got a powerful connection to your vehicle and the world around you standard for 5 years at no additional cost to you. You’ll have access to select services, which include limited features of the OnStar RemoteLink mobile app that lets you remote-start your car (if equipped), pinpoint your vehicle on a map on your smartphone and manage your vehicle’s Wi-Fi hotspot (if equipped). Plus, send a destination to your in-vehicle navigation screen and lock or unlock your doors—all from your mobile device. Your vehicle can run diagnostic checks on itself and remind you of servicing needs by e-mail.

AUTOMATIC CRASH RESPONSE In a crash, built-in sensors can automatically alert an OnStar Advisor who is immediately connected into your vehicle to see if you need help—even if you can’t ask for it.

EMERGENCY SERVICES One push of the red emergency button gives you a priority connection to a specially trained OnStar Advisor who can direct emergency services to your exact location and offer critical assistance until help arrives. With OnStar, you’re never alone.

CRISIS ASSIST During severe weather or other crisis situations, OnStar can provide a quick, central point of contact when you need emergency assistance, navigation help or information.

ROADSIDE ASSISTANCE If you’re stranded, have a flat tire or need a tow truck, just ask an OnStar Advisor to get help to your exact location to get you back on the road quickly.

STOLEN VEHICLE ASSISTANCE² If your vehicle is stolen, OnStar can use GPS to pinpoint and work with authorities to quickly help recover it. On many models, an Advisor can send a signal to slow the vehicle or prevent it from restarting.

WE’RE AS CLOSE AS THE BLUE BUTTON.

ONSTAR WITH 4G LTE CONNECTION³ With powerful 4G LTE connectivity built right into your vehicle, you have your very own mobile command center that provides faster service delivery and lets you stay connected on the go.

ONSTAR REMOTELINK® MOBILE APP³ You can remotely start your vehicle, locate your vehicle on a map, lock or unlock your doors, honk your horn and flash your lights. You can also send directions to your vehicle through your smartphone.

REMOTE SERVICES A simple call to an OnStar Advisor can send a signal to unlock your doors or honk the horn and flash the lights. It’s technology hard at work to get you back on the road.

HANDS-FREE CALLING² Your vehicle has built-in Hands-Free Calling to help keep you safely connected when your cell phone isn’t available. Choose from minute bundles or a minutes-per-month plan.

ATYOURSERVICE² Life just got easier and more affordable with the personalized connection of AtYourService. Our trusted Advisors can deliver offers for everyday savings from restaurants and retailers on your route, help you locate hotels and even book your room.

ONSTAR VEHICLE DIAGNOSTICS As part of the Basic Plan, every month, your vehicle runs a thorough check of your engine, transmission, antilock brakes and more, and e-mails you the results.

DEALER MAINTENANCE NOTIFICATION Is it time for a tire rotation? An oil change? Or a new air filter? You’ll always know because your car can e-mail your Vehicle Diagnostics report to the dealer when it’s time, and the dealer will contact you to set up a service appointment.

THE BONUS ROUND.

Available individually or as part of a package, GMC Accessories are the best way to take Terrain’s iconic design and add your own personal style. Of course, they’re engineered and tested to meet the Professional Grade standards of your Terrain.

ROOF RACK CROSS RAIL PACKAGE These cross rails add function and style to the factory roof rack of your Terrain. The cross rails are the base mount for a variety of cargo management accessories.

CARGO SECURITY SHADE Conceal your possessions in the cargo area with this retractable cargo shade.

OUTSIDE REARVIEW MIRROR COVERS Add a stylish look to your Terrain with these chrome mirror covers.

TRAILERING EQUIPMENT PACKAGE This structural welded steel hitch features a standard 1.25” receiver to fit most ball-mount assemblies and includes a wiring harness.

CHROME DOOR HANDLES These outside door handles replace the production handles to give your Terrain a stylish and personalized look.

MOLED SPLASH GUARDS Custom-molded splash guards fit directly behind the wheels. Rear guards feature the GMC logo.

CHROME FUEL DOOR Help your Terrain stand apart with this distinctive chrome fuel door.

TABLET HOLDER Second-row passengers enjoy the convenience of using tablets on the road with this holder. It securely holds a single tablet against the front seatback in portrait or landscape mode, attaching to the driver- or front-passenger-seat head restraint posts. They’re available in Gray or Beige.

PREMIUM ALL-WEATHER FLOOR MATS Their deep-ribbed pattern collects rain, mud, snow and other debris for easy cleaning. Nibs on the back help keep them in place. Available in Jet Black with an embossed GMC logo on front mats only.

CARGO NET It attaches easily to the sides of your cargo area to keep small, light items neat and handy while in transit.

CARGO ORGANIZER This durable, flexible, collapsible cargo organizer has multiple compartments, allowing you to carry lightweight items of various sizes. Can be folded flat or removed from the vehicle as needed.

CARGO AREA CLOSE-OUT PANEL Create a flat, easy-to-load cargo area regardless of the rear-seat position. The panel bridges the gap between the cargo floor and the rear seatback.

PROTECTION PACKAGE (VQG)
- All-weather floor mats
- Custom-molded splash guards

CARGO CONVENIENCE PACKAGE (VQR)
- Cargo organizer
- Cargo security shade
- Cargo net
### Mechanical

- **Alternators**: 120 amps
  - 156 amps. Included with 3.6L V-6 Variable Valve Timing (VVT) direct-injection engine.
- **Battery**: 725 cold-cranking amps with rundown protection. Included with 2.4L I-4 VVT direct-injection engine.
- **Brakes**: 4-wheel antilock, 4-wheel disc.
- **Drivetrains**: Front-Wheel Drive (FWD)
  - All-Wheel Drive (AWD)
- **Engines**: 2.4L I-4 VVT direct-injection, 16-valve 4-cylinder; 182 hp, 172 lb-ft of torque
  - 3.6L V-6 VVT direct-injection; 301 hp, 272 lb-ft of torque
- **Exhaust**: Single
  - Dual with premium tips. Included with 3.6L V-6 VVT direct-injection engine.
- **StabilTrak**: Vehicle stability enhancement system. Includes Trailer Sway Control.
- **Steering**: Power with variable electric assist
  - Power with hydraulic assist. Included with 3.6L V-6 VVT direct-injection engine.
- **Soft Ride Suspensions**: Front independent with strut-type coil springs
  - Rear independent trailing arm with 3 lateral locating links, coil springs
  - Enhanced ride and handling with dual-flow front dampers
- **Traction Control**: 6-speed automatic

### Seating

- **Seats**: Premium cloth
  - Ultramicro perforated-leather-appointed
  - Ultramicro perforated-leather-appointed with embroidered Denali logo on front seats
- **Front Bucket Seats**: 80/20 split bench, 3-passenger with Multi-Flex manual fore/aft adjustment and recline feature
  - Heated driver and front-passenger seats. On SLE-2, requires Convenience Package.
  - Driver 2-way manual fore/aft-adjuster, power lumbar and power seat height (up/down)
- **Windows**: Power with driver and front-passenger express-down
- **Technology/Communication/Navigation**: 5-year Basic Plan and 6-month Guidance Plan
  - OnStar 4G LTE® Wi-Fi® hotspot capacity (with normal 3-month/3GB trial, whichever comes first)
  - RemoteLink® vehicle control, leafly availability includes access to limited OnStar® services.

### Instrumentation and Controls

- **Steering Wheel**: Comfort-grip vinyl with integrated audio and cruise controls
  - Leather-wrapped with mounted audio and cruise controls
  - Leather-wrapped with smoked mahogany wood tones and mounted audio and cruise controls
  - Tilt and telescopic steering column
- **Universal Home Remote**: Includes garage-door opener, programmable. On SLT requires available power liftgate.
CONVENIENCE FEATURES

REMOTE KEYLESS ENTRY
REMOTE VEHICLE START Includes extended-range Remote Keyless Entry. On SLE-2, requires Convenience Package.

CONVENIENCE PACKAGE Includes remote vehicle start and heated driver and front-passeger cloth seats. Included with Chrome Edition.

CARGO MANAGEMENT PACKAGE Includes cargo cover, cargo convenience net and luggage crossbars

3Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. 4Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity. Data plan rates apply. 5A NOTE ON CHILD SAFETY: Always use safety belts and the correct child restraint for your child’s age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner’s Manual and child safety seat instructions for more safety information. 6Before you buy a vehicle or use it for trailering, carefully review the trailering section of the Owner’s Manual. The weight of passengers, cargo and options or accessories may reduce the amount you can tow. 7Cargo and load capacity limited by weight and distribution.
